EDUCATION

Bachelor of Software Engineering

Universiti Teknikal Malaysia Melaka (UTeM)

CGPA: 3.67 / 4.00

2022 – Apr 2027 (Expected)

TECHNICAL SKILLS

Languages	C++, Java, JavaScript, Python
Frontend	React.js, HTML, CSS
Backend	Flask (Python)
Databases	SQL, DBeaver
Concepts	Object-Oriented Programming (OOP), Database Management, REST APIs
Tools & Platforms	Git, Android Development, Requirement Gathering, UI/UX Prototyping

PROJECTS

Automatic Reporting System

Developed a full-stack web application using React.js (frontend) and Flask/Python (backend) to automate data extraction from uploaded files (images/documents) and populate pre-built report templates. Integrated DBeaver for database management and query optimisation.

Bus Ticketing System

Designed and implemented a simulated inter-state bus ticketing system in C++. Incorporated structured database management for booking records, seat allocation, and automated report generation, demonstrating strong understanding of data persistence.

Smart Parking System

Built a simulated smart parking system in Java using Object-Oriented Architecture (OOP). Modelled real-world entity relationships (vehicles, slots, transactions) with clean class hierarchies and encapsulation principles. Utilized multithreading to simulate concurrent vehicle entry and exit, ensuring thread safety and efficient resource management.

Alumni Home Rental System

Built a new home rental website that specific for university alumni using html/php and python. Developed a robust backend infrastructure to manage property listings, user authentication, and secure payment processing. Implemented a dynamic search algorithm to filter rental options based on proximity and price, while integrating a responsive front-end interface to enhance user experience.

CORE COMPETENCIES

- Requirement Gathering & Analysis
- Creative Problem Solving
- Critical Thinking
- Team Collaboration
- UI/UX Design & Prototyping
- Adaptability & Fast Learning

INTERNSHIP AVAILABILITY

Available for a 24-week internship from **28 September 2026 to 12 March 2027**. Open to roles in software development, web development, or related fields.
